Recipients of the 2014 Acta Student Awards

A team of judges consisting of Acta Materialia, Scripta Materialia, and Acta Biomaterialia editors has completed the evaluation of nominees for the above awards. Each year we receive many excellent nominations and selecting the winners is a challenging task. Several factors are considered in the evaluation of each nominee: the quality of paper, or papers, for which he or she was nominated, recommendation letters, and leadership potential. The awardees selected from papers published in 2014 in the Acta Journals are:

Dr. Kelsey A. Potter-Baker, Case Western Reserve University, Cleveland, Ohio, USA (now at Cleveland Clinic Foundation). Advisor: Prof. Jeffrey R. Capadona. “Curcumin-releasing mechanically compliant implants prevent neurodegeneration and blood-brain barrier instability at the implant-tissue interface.” Acta Biomaterialia 10 (2014), 2209–2222.

The editors would like to congratulate the awardees and thank all the nominees for their participation. We wish them all the best in their careers.

Subhash Mahajan
Coordinating Editor, Acta Journals
