## Announcement

## Acta Journals' Outstanding Reviewers in 2021

Peer review is a cornerstone of science. Elsevier and Acta Materialia, Inc. are dedicated to supporting and recognizing the journals' reviewers. The Acta Journals are delighted to announce the recipients of the 2022 Outstanding Reviewer awards for excellence in reviewing throughout the calendar year of 2021. These awards are selected by the Editors of Acta Materialia, Scripta Materialia, Acta Biomaterialia and Materialia. Each recipient receives a certificate and is offered an honorarium as thanks for their support of the titles, as well as their help ensuring the continued high quality of the journals.

**Acta Materialia and Scripta Materialia**

Karsten Albe, Technical University of Darmstadt, Germany  
 Raymundo Arroyave, Texas A&M University, U. S. A.  
 Moataz Attallah, University of Birmingham, UK  
 Ian Baker, Dartmouth College, U. S. A.  
 Allison Beese, Pennsylvania State University, U. S. A.  
 Laurent Karim Beland, Queen's University, Canada  
 Pascal Bellon, University of Illinois at Urbana-Champaign, U. S. A.  
 Marco Bernasconi, University of Milano-Bicocca, Italy  
 Remy Besson, University of Lille, France  
 Mattia Biesuz, University of Trento, Italy  
 Matthias Bönisch, KU Leuven, Belgium  
 Nick Birbilis, Australian National University, Australia  
 Carl Boehlert, Michigan State University, U. S. A.  
 Óscar Borrero López, Universidad de Extremadura, Spain  
 Laure Bourgeois, Monash University, Australia  
 Yunhui Chen, RMIT University, Australia  
 Volodymyr Chernenko, BCMaterials and University of Basque Country - UPV/EHU, Spain  
 Daoyong Cong, University of Science and Technology Beijing, China  
 Zachary Cordero, Massachusetts Institute of Technology, U. S. A.  
 Bill Curtin, Multiscale Mechanics Modeling, Switzerland  
 Michael Demkowicz, Texas A&M University, U. S. A.  
 Cody Dennett, Massachusetts Institute of Technology, U. S. A.  
 Eric Detsi, University of Pennsylvania, U. S. A.  
 Shen J. Dillon, University of Illinois at Urbana-Champaign, U. S. A.  
 Osman El-Atwani, Los Alamos National Laboratory, U. S. A.  
 Qiang Feng, University of Science and Technology, Beijing, China  
 Peter Fielitz, Clausthal University of Technology, Germany  
 John G. Fisher, Chonnam National University, South Korea  
 Jerrold Floro, University of Virginia, U. S. A.  
 Victorino Franco, University of Seville, Spain

Shun Fujieda, Osaka University, Japan  
 Ernst Gamsjaeger, Montanuniversität Leoben, Austria  
 Eugenio Garcia Granados, Stony Brook University, U. S. A.  
 Pierre-Antoine Geslin, CNRS - INSA Lyon, France  
 Christian Greiner, Karlsruhe Institute of Technology, Germany  
 Ivan Gutierrez-Urrutia, National Institute for Materials Science, Tsukuba, Japan  
 Jack C. Haley, UK Atomic Energy Authority, UK  
 Yulin Hao, Institute of Metal Research, Chinese Academy of Sciences, China  
 Stefanus Harjo, Japan Atomic Energy Agency, Japan  
 Khalid Hattar, Sandia National Laboratories, U. S. A.  
 Linn W. Hobbs, Massachusetts Institute of Technology, U. S. A.  
 Anton Hohenwarter, Montanuniversität Leoben, Austria  
 Hefei Huang, Shanghai Institute of Applied Physics, China  
 M. X. Huang, The University of Hong Kong, Hong Kong  
 Xinsheng Huang, National Institute of Advanced Industrial Science and Technology, Japan  
 Cheol Seong Hwang, Seoul National University, South Korea  
 Mitsuhiro Itakura, Japan Atomic Energy Agency, Japan  
 Jae-il Jang, Hanyang University, South Korea  
 Gang Ji, Université de Lille, France  
 Zengbao Jiao, The Hong Kong Polytechnic University, Hong Kong  
 Sara Kadhodaei, University of Illinois Chicago, U. S. A.  
 Ibrahim Karaman, Texas A&M University, U. S. A.  
 Elizabeth Kautz, Pacific Northwest National Laboratory, U. S. A.  
 Hee Young Kim, University of Tsukuba, Japan  
 Yuuji Kimura, National Institute for Materials Science, Japan  
 Sandra Korte-Kerzel, RWTH Aachen University, Germany  
 Markus Kühbach, Humboldt-Universität zu Berlin, Germany  
 Punit Kumar, Lawrence Berkeley National Lab, U. S. A.  
 Mukul Kumar, Lawrence Livermore National Laboratory, U. S. A.  
 Piotr Kwasniak, Warsaw University of Technology, Poland  
 Si Lan, Nanjing University of Science and Technology, China  
 Maik Lang, University of Tennessee at Knoxville, U. S. A.  
 Guillaume Laplanche, Ruhr-Universität Bochum, Germany  
 James Larsen, Air Force Research Laboratory, Wright-Patterson Air Force Base, U. S. A.  
 Michael Leitner, Technical University of Munich, Germany  
 Shihao Li, Nanyang Technological University, Singapore  
 Shujun Li, Institute of Metal Research, Chinese Academy of Sciences, China  
 Runguang Li, Technical University of Denmark, Denmark  
 Fei Li, Xi'an Jiaotong University, China  
 Xin Lin, Northwestern Polytechnical University, China  
 Yue Liu, Shanghai Jiao Tong University, China  
 Jian Liu, Shanghai University China

- Javier Llorca, Polytechnic University of Madrid & IMDEA Materials Institute, Spain  
 Chenyang Lu, Xi'an Jiaotong University, Xi'an, China  
 Jeremy Mason, University of California, Davis, U. S. A.  
 Robert Maass, Federal Institute for Materials Research and Testing (BAM), Germany  
 Marisa Medarde, Paul Scherrer Institute, Switzerland  
 Jiawei Mi, University of Hull, UK  
 Amit Misra, University of Michigan (Ann Arbor), U. S. A.  
 Eric J. Mittemeijer, Max Planck Institute for Intelligent Systems, Germany  
 Takao Mori, National Institute for Materials Science, Japan  
 Anna Mortazavi, Chalmers University of Technology, Sweden  
 Andreas Mortensen, École polytechnique fédérale de Lausanne, Switzerland  
 Amir Motaman, RWTH Aachen University, Germany  
 Xavier Moya, University of Cambridge, UK  
 R. Narasimhan, Indian Institute of Science, India  
 R. Lakshmi Narayan, Indian Institute of Technology-Delhi, India  
 Ian Nettleship, University of Pittsburgh, U. S. A.  
 Tuan Nguyen-Minh, Ghent University, Belgium  
 Vaclav Ocelik, University of Groningen, the Netherlands  
 K. Anantha Padmanabhan, Tata Consulting Services (TCS)  
 Thomas Pardoën, UCLouvain, Belgium  
 Andreas Phillion, McMaster University, Canada  
 Efthymios Polatidis, Paul Scherrer Institute, Switzerland  
 Abhijit Pramanick, City University of Hong Kong, Hong Kong  
 Eugen Rabkin, Technion Israel Institute of Technology, Israel  
 Sai Ramudu Meka, Indian Institute of Technology Roorkee, India  
 Feng Rao, Shenzhen University, China  
 Diego Ribas Gomes, University of Groningen, the Netherlands  
 Nicholas Rolston, Arizona State University, U. S. A.  
 Timothy Rupert, University of California - Irvine, U. S. A.  
 Nicolas Saintier, Arts et Métiers ParisTech, France  
 Abel Santos, The University of Adelaide, Australia  
 Patrick Schelling, University of Central Florida, U. S. A.  
 Katrin Schulz, Karlsruhe Institute of Technology, Germany  
 Peter Schumacher, Montanuniversität Leoben, Austria  
 Marco Sebastiani, University of Rome "Roma Tre," Italy  
 Huseyin Sehitoglu, University of Illinois at Urbana-Champaign, U. S. A.  
 David N. Seidman, Northwestern University, U. S. A.  
 Mehdi Shahedi Asl, University of Mohaghegh Ardabili, Islamic Republic of Iran  
 Huang Sheng, Nanyang Technological University, Singapore  
 Xun Shi, Shanghai Institute of Ceramics, Chinese Academy of Sciences, China  
 Tomotsugu Shimokawa, Kanazawa University, Japan  
 Vladimir Sihvartsman, University of Duisburg-Essen, Germany  
 Marcel A. J. Somers, Technical University of Denmark, Denmark  
 Aaron P. Stebner, Georgia Institute of Technology, U. S. A.  
 Satyam Suwas, Indian Institute of Science, India  
 Xin Tang, National Institute for Materials Science, Japan  
 Spencer Thomas, Stony Brook University, U. S. A.  
 Isaac Toda-Caraballo, CENIM-CSIC, Spain  
 Damien Tournet, MDEA Materials Institute, Spain  
 Noriyuki Tsuchida, University of Hyogo, Japan  
 Tomohito Tsuru, Japan Atomic Energy Agency, Japan  
 Stefan Van Bohemen, Tata Steel, Netherlands  
 Hugo Paul Van Landeghem, Science et Ingénierie des Matériaux et Procédés, France  
 Ken Vecchio, University of California - San Diego, U. S. A.  
 Qiuming Wei, University of North Carolina- Charlotte, U. S. A.  
 Thierry Wiss, European Commission, Joint Research centre, Germany  
 Wanchuck Woo, Korea Atomic Energy Research Institute, Korea  
 Ruizhi Wu, Harbin Engineering University, China  
 Yuan Wu, University of Science and Technology Beijing, China  
 Yunchang Xin, Nanjing Tech University, China  
 Haixue Yan, Queen Mary University of London, UK  
 Rui Yang, Institute of Metal Research, Chinese Academy of Sciences, China  
 Shuhei Yoshida, Kyoto University, Japan  
 David Young, University of New South Wales, Australia  
 Mohsen Asle Zaeem, Colorado School of Mines, U. S. A.  
 Jiwei Zhai, Tongjing University, China  
 Guang-Ping Zhang, Chinese Academy of Sciences Institute of Metal Research, China  
 Li-Dong Zhao, Beihang University, China  
 Yakai Zhao, Nanyang Technological University, Singapore  
 Xiao ZHOU, Shanghai Jiao Tong University, China
